Alexis I. duPont High School

Greenville Elementary School

## Foreword

The philosophy of education upon which the Alexis I. duPont High School bases its entire program is one of preparing young people for assuming responsible positions in the community. We, the staff of the 1962 Alexis, feel that, with very few exceptions, A.I. succeeds in attaining this goal. Consequently, there exists a very warm bond between A.I. and the surrounding community. It is our purpose in presenting the Alexis of 1962 to accurately represent this bond. It is our hope that when you re-read this book years from now that you will be able to appreciate the fine job our school is doing in developing the citizens of the future.

# FALL . . .

Even though the official school year has not begun, school activities are off to a roaring start.

Pre season football and hockey practice condition potential sports stars for the rigors of the coming fall . . . The AFS party provides a taste for the *fun* to come.

THEY ARE ALL

THEY ARE ALL

To be characters in every school  
 was a new appointment. Students  
 with their books. Students having a  
 fast and good school. The only  
 thing that is in the session

Most any hockey team is like what we have here . . . as long as you stay in the AHL. Boy, did we sing that song when we got the Three years without a loss and a coach coming up. Let's see what that record is!

All right fellas, let's try it again

easier?

The football season is  
 one of the high spots of the year.  
 This year's team was far  
 from an exception. New  
 spirit and team spirit were at  
 an all-time high. Every  
 body was busy all over  
 with pride.

# DORANNE FOR HARVEST QUEEN!

## Gloria For Harvest Queen

The Harvest Ball . . . the very words spell magic for every girl from the ninth grad up . . . but to the senior girls the words hold a special meaning. For the Harvest Queen is chosen from the senior class. After a week of campaigning . . . the wonderful moment when the queen discovers she is the chosen one.

A group of the  
 students of the  
 school, and  
 the teacher.

This fall was marked by an unusual and exciting event—Evaluation. Everyone from the administrators to the custodians wondered—how would A.I. stack up? We know A.I. is wonderful, but how could we convince them? Even parents were concerned . . . undoubtedly Evaluation was discussed during Parent-Teacher Night. But whatever the answers turned out to be, everyone heaved a sigh of relief when it was over!

**WINTER...**

Laughter, gaiety, joy, shopping, decorating and everything that  
 make up the Christmas season. A very special time for Alexis

# Christmas Assembly

What could be a more wonderful way to tell the Christmas story than with the moving music of our choir and the stirring presentation of the Dramatics Club . . . and some add this year—the Hockessin and Greenville Choirs and an excellent assembly by the Band

Go to study hall

Are they always there?

The winter semester means changes for many Seventh and Eighth graders change their schedules, and health classes begin. For upperclassmen this is a semester of hard work a semester in which the library is used constantly for it is the time to start those term papers . . . believe it or not they're due in three months!

Friends, this is not a pool table

How do you feel about this?

What do you think?

Winter is a period of worry about things to come, namely the exams. Theists worry because they just can't get over forty words per minute. Physicists and chem lab students are worrying about their enormous percentage of error. The social lab students are worrying about their error rate. These students are not just worrying. Why oh why does it this for the end.

some of them are ex-acting up as busy as they were then. Others have settled down and are working hard. Would a few spring fever whet affect them?

It helps if you aren't "butterfingers"

Just because the football field is covered with snow doesn't mean the sports program grinds to a halt . . . far from it! Basketball and wrestling take full advantage of the inclement weather . . . During the second and third marking periods, the gyms are filled every single afternoon. The question at this time is "Do we have early or late practice today?" But whatever the answer is, practice is held and games are played

What do you mean, where is it?

Let's requisition cushions

Say uncle

It's what's up there that counts

These are the games  
the reasons we endure  
the gruelling practice ses-  
sions . . . nothing can ever  
replace the feeling of pride  
and satisfaction on the part  
of the players, coaches and  
fans that we know when  
the games end with the  
points in our favor because  
we have earned them

How many of you know someone who has been in an accident

Mid-winter assemblies and mid-winter dances . . . two more ways to have fun until the snow melts . . . for example, who can forget Sergeant Pike? . . . The on-stage Student Council meetings . . . and the Sports King and Queen Dance—such a handsome king and lovely queen . . . and such good athletes!

Congratulations!

Furthermore

Where'd they find that boy?

Winter prohibits outside activities, but who cares? There are thousands of things to do . . . After all, what better ways to spend time than with a stimulating chess game, a good book—and food?!

## Student Council

The Student Council is a group of students who are elected to represent the student body. They are responsible for planning and organizing school activities, as well as representing the students in meetings with school officials. The council is made up of members from each grade level, and they work together to make decisions about school policies and programs. The council is an important part of the school community, and they play a vital role in making the school a better place for everyone.

Further, American companies, such as IBM, Apple, and Microsoft, have been accused of using their market power to stifle competition. For example, IBM was accused of using its dominance in the mainframe computer market to block the entry of smaller companies. Similarly, Apple was accused of using its control over the iPhone market to prevent other manufacturers from competing. Microsoft, on the other hand, was accused of using its power in the software market to block the entry of Linux and other open-source operating systems.

THE  
SCHOOL  
YEAR  
1944-1945  
The school year 1944-1945 was a year of great change and growth for the students of the school. The students were faced with many challenges, but they overcame them all with courage and determination. The school year was a year of great achievement and success for all who were part of it.

## MR. WILLIAM CASSON

Mr. Casson is the familiar face that helps hundreds of A.I. students across the Pike every morning. However, in the time these people see him, he is only working an hour for he is the man who keeps the building going. He is the man who knows what is going on in the water tower in the kitchen and who knows what is going on in the boiler. He is in charge of the building and the repairs such as the water tower. A.I. is a big building shambles without him.

## MR. EDWARD CALDWELL *Building Superintendent*

Mr. Caldwell is the man who keeps the building in good shape. He is the man who knows what is going on in the water tower in the kitchen and who knows what is going on in the boiler. He is in charge of the building and the repairs such as the water tower. A.I. is a big building shambles without him.

## MR. CHARLES EMORY

Mr. Emory is Mr. Casson's helper. He is the man who knows what is going on in the water tower in the kitchen and who knows what is going on in the boiler. He is in charge of the building and the repairs such as the water tower. A.I. is a big building shambles without him.

## THE KITCHEN STAFF

The women who work in the kitchen are the A.I. kitchen staff. They are the women who feed the students every day at 11:11 A.M. They are the women who keep the kitchen running and who make sure that the students are fed. They are the women who are the backbone of the kitchen staff.
